

DANIEL COHEN-COLLAZO

Cybersecurity & Information Systems | Disaster Recovery & Business Continuity | Data & Systems Analysis

Information Systems student (B.B.A., Cybersecurity concentration, 2026) with hands-on exposure to cybersecurity fundamentals, risk management, Linux, firewall configuration, SQL, and enterprise workflow analysis. Current Home Depot specialist experienced in data organization, documentation, issue tracking, and cross-functional coordination. Johns Hopkins Executive & Professional Education certificate in Agentic AI; CompTIA Security+ in progress. Seeking to support Disaster Recovery, Technology Asset Management, and IS operations.

EDUCATION & CERTIFICATIONS

B.B.A. IN INFORMATION SYSTEMS — CYBERSECURITY CONCENTRATION

Aug 2020 – Aug 2026

The University of Texas At San Antonio

San Antonio, TX

- Relevant coursework: Information Assurance & Security, Intrusion Detection & Incident Response, Network Security, Cybersecurity Policy, Cybercrime Investigation, Telecommunications & Networking, Operating Systems Security, Business Process Analysis.

CERTIFICATE IN AGENTIC AI — WHITING SCHOOL OF ENGINEERING (EXECUTIVE & PROFESSIONAL EDUCATION)

Jan 2026 – Jul 2026

Johns Hopkins University

- Completed 11 CEUs / 110 learning hours in autonomous AI systems, enterprise workflow design, and business applications of agentic AI.

CompTIA Security+ — In Pursuit

- Building knowledge in network security, threats & vulnerabilities, identity management, and cryptography.

TECHNICAL SKILLS

DISASTER RECOVERY & CONTINUITY: Disaster recovery fundamentals, business continuity awareness, recovery readiness, gap tracking, RTO/RPO awareness, Business Impact Analysis awareness,

CYBERSECURITY & RISK: Risk management, security awareness, security controls, vulnerability awareness, incident response fundamentals, defense in depth, asset lifecycle awareness,

DATA ORGANIZATION & REPORTING: Data gathering, data validation, Excel, SQL, metrics reporting, KPI tracking, dashboard support, documentation tracking,

TECHNICAL FOUNDATIONS: Networking, server/database/storage concepts, cloud fundamentals, Linux, Windows administration concepts, firewall concepts

PROJECTS & LABS

LAYERED NETWORK SECURITY & FIREWALL CONFIGURATION LAB

- Configured endpoint and perimeter firewall controls across Linux and Windows using UFW and pfSense, validating WAN/DMZ rule behavior through access testing.
- Documented control logic, access outcomes, and configuration findings to reinforce defense-in-depth.

DUAL LENS ANALYTICS — BUSINESS APPLICATIONS OF AGENTIC AI

- Completed structured analysis of enterprise AI workflows, implementation risks, governance considerations, and process controls across IT operations, finance, HR, and supply chain use cases.
- Evaluated how autonomous workflows should be documented, monitored, validated, and controlled to reduce enterprise risk.

DNS EXFILTRATION DETECTION & TRAFFIC ANALYSIS LAB

- Simulated DNS-based data exfiltration, captured network traffic in Wireshark, and analyzed encoded queries to identify suspicious data movement patterns.
- Documented detection opportunities and defensive recommendations, including DNS monitoring, egress filtering, and deep-packet inspection.

AI BUILD EVIDENCE

- Senior Mortgage Underwriting System — multi-agent LangGraph/OpenAI/ChromaDB/RAG system generating audit-ready credit memos (100% accuracy across three test cases).
- Autonomous Financial Analyst Agent — retrieval-augmented research agent over private documents.

EMPLOYMENT HISTORY

MILLWORK SALES SPECIALIST (AUG 2025–PRESENT) • FLOORING SPECIALIST (JUN–AUG 2025) • PAINT ASSOCIATE & CASHIER (2020–2025)

May 2020 – Present

The Home Depot

San Antonio, TX

- Produced detailed documentation for complex customer projects — requirements, pricing, measurements, vendor notes, installation details, and change tracking — reducing rework and improving execution accuracy.
- Reviewed orders, quotes, installation notes, and specifications to identify discrepancies, validate requirements, and resolve issues before fulfillment.
- Tracked open quotes, leads, measures, credit activity, and project-status metrics to identify trends and prioritize follow-up actions.
- Coordinated across customers, installers, vendors, supervisors, and specialty teams to resolve scope conflicts and keep multiple active projects moving forward.
- Consistently exceeded assigned sales goals; ranked #2 of 30 specialists district-wide.
